

Daily Diary, O/RR, 2 Apr 51 (AD/RR information unless otherwise stated)

D/I:

25X1A

25X1A

[redacted] visited ONI for the purpose of contacting various officers and holding exploratory talks on the subject of USSR SUBMARINE CONSTRUCTION. Discussed and arranged for lists of TRAINING FILMS which may be useful FOR indoctrinating NEW PERSONNEL IN D/I. [redacted], Head of Intelligence Branch, is also endeavoring to formulate a LISTING OF AVAILABLE NAVY SCHOOLS for us. Talked shortly with Heads of Collection and Dissemination, Foreign, and Administrative Branches. In the Maritime Unit which occupies itself with submarine construction among others, it presently appears that no written study, as such, has been made - primarily because information is not forthcoming. A working paper was on hand and was seen. This, in brief, gave an estimate of the capability of three (?) yards. Intend to request copy. (6 Apr)

25X1A

D/A:

[redacted]

25X1A

D/M:

[redacted] appeared before a group of officers attending the Industrial College of the Armed Forces along with Mr. WIEDEMANN of the STATE Department in a SEMINAR ON STRATEGIC MATERIALS IN THE SOVIET ORBIT. (6 Apr)

25X1A D/G:

[redacted] proceeded to New York City, [redacted] to conduct further exploitation of MAPPING INFORMATION HELD BY [redacted]

25X1A

25X1B

(6 Apr)

25X1A

D/B:

[redacted] conferred with H. J. Barton, Acting Petroleum and Natural Gas Economics Coordinator, and five (5) others from the Bureau of Mines (Interior) on the petroleum supplement for NIS 86 and petroleum supplement contents and production in general. (6 Apr)

Balance of O/RR - Negative
